The Fremont Community Therapy Project is a private not-for-profit (501c.3) organization that has two missions: to provide high-quality and low-cost feminist, culturally competent, queer-friendly, and trauma-aware psychological services to persons without means; and to provide high-quality training in the practice of psychotherapy and psychological assessment to doctoral students in clinical and counseling psychology. FCTP runs almost entirely on client fees and small donations, as well as on the volunteer energy of our staff and supervisors. We are honored that two luminaries of the field, Drs. Briere and Norcross, are offering their time and energy to FCTP to assist us in raising funds to support our programs.
